

Experience

UX Designer Independent / May 2024

- Work through each stage of design thinking, from researching the viability of an idea to formulating user-centered ideas.

UI Designer Independent / May 2024

- I design websites and mobile applications in different fidelities through Figma, although I design more frequently in high fidelities.
- Design interface packages (UI Kits).
- Perform color research to properly represent each idea or company requested.

UX Writer Independent / May 2024

- I was in charge of improving the content of some web pages, emails, applications and even mobile notifications.
- I wrote text that is both human-readable and search engine friendly (SEO).

HTML and CSS Programmer Independent / 2022 - present

- Create web pages using only HTML and CSS, without frameworks like Bootstrap.
- I design responsive websites with good SEO practices.
